4930-B	27368	1/4	3	3-1/2	1/4
492-C	45625	1/4	2	6	1/4

\*Bits meet the same dimensions as those published by the manufacturers of the Apex® and Magna™ brands.

<b>Applications/ Advantages</b>	Phillips is the most popular drive style in the industry. The reduced diameter variety is recommended for installing drywall or particle board screws. Power bits are used with power driven tools. Insert bits are ideal for hand drivers, or may be used in conjunction with bit holders in power drivers. Extra hard bits are used specifically with case hardened screws.
<b>Material</b>	Chrome vanadium tool steel
<b>Hardness</b>	Rockwell C 59 - 62.

Apex® is a registered trademark of Cooper Industries.  
Magna™ is a division of Vermont American Corporation.

Our insert and power bits are not manufactured by or connected with the producers of Apex® or Magna™ bits.
